

CL-6

The all new Shakespeare CL-6 antenna is the worlds first fully lit antenna with no impact on performance. The design is based on our top performing antennas to ensure quality and has the added benefit of adding light to your vessel. The light has full RGB Range and can be controlled via an App to be a solid color or to change as desired.

Available in VHF or alternatively as a FLAG POLE with no element

- Stainless Steel ferrule antenna based on the 5101 design
- Fully water sealed electronics with high quality connectors
- Supplied with 8m cable and plug as standard
- Designed to work with all 12 / 24v systems
